

DITI DESAI

I am a Physician Assistant Major, and I'm from Parsippany, New Jersey. I really had an amazing year here at Philadelphia University! College in the city was definitely everything that I thought it would be and more. Ever since my first day here during START I made amazing friends, explored the city. There was always so much going on both on campus and off that I never really felt homesick. With amazing friends that have become like family I am excited for my next year at Philau!
